1

Carefully cut out the head with scissors.

2

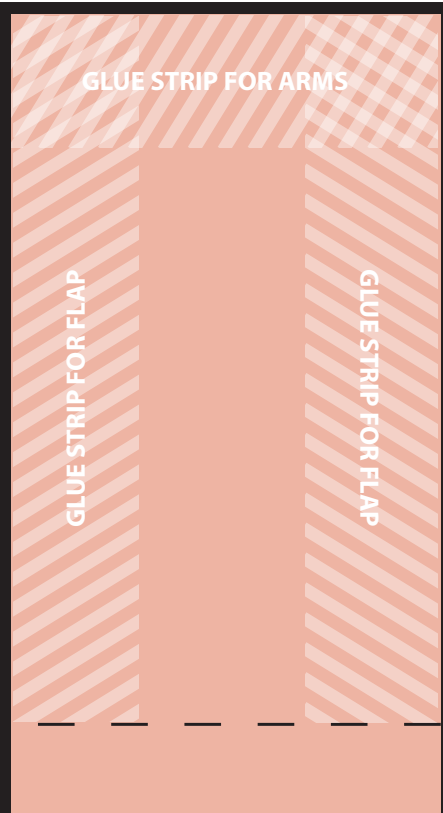

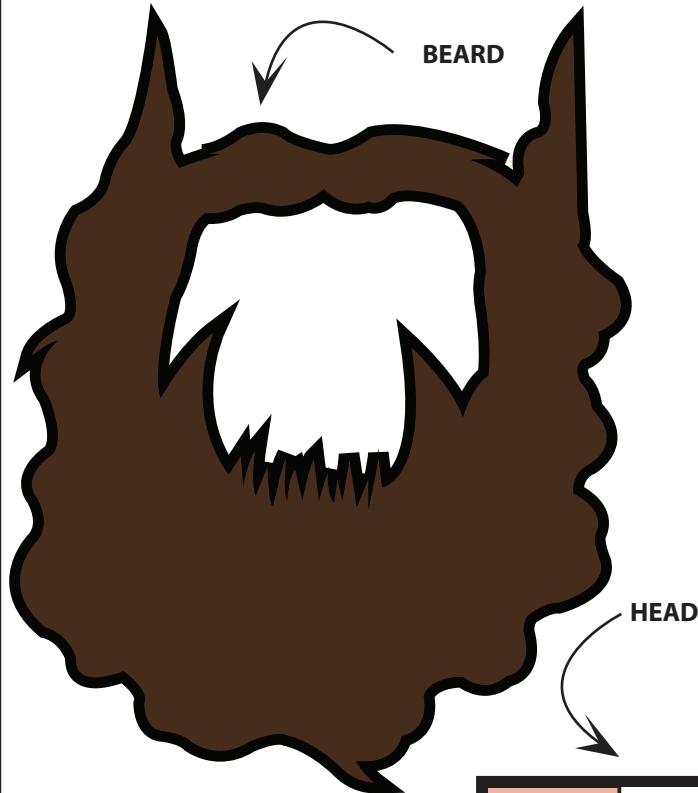

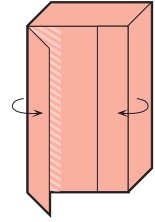

Fold and crease along the dotted lines.

3

Apply glue to the glue strips.

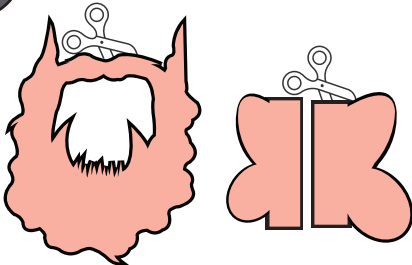

4

Fold and press the flaps onto the glue strip to form the head box.

5

Carefully cut out the beard and ears with scissors.

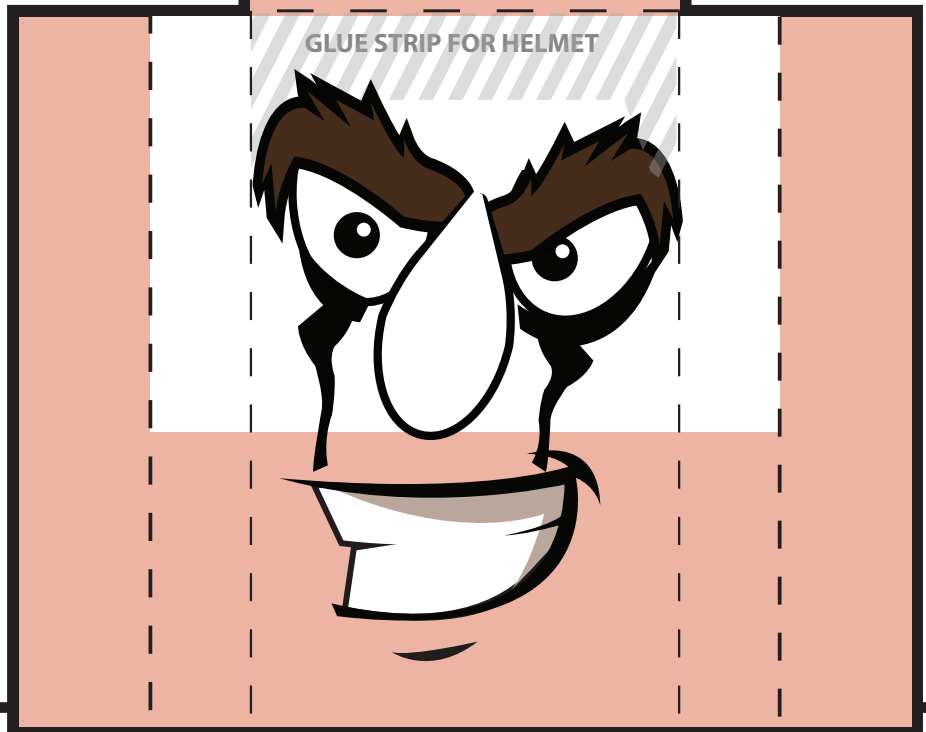

6

Apply glue to the glue strip on ears and back side of the moustache and sideburns.

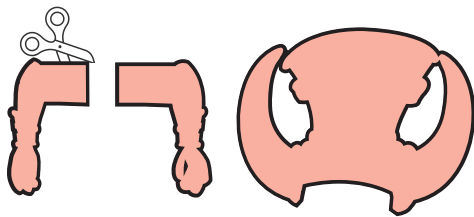

7

Press the beard on the front of the head box and the ears on the back (color toward front).

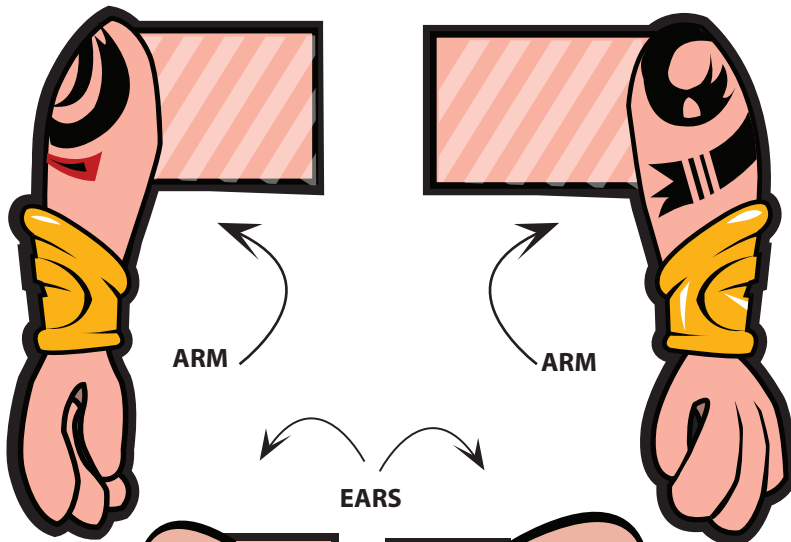

8

Carefully cut out the helmet and arms.

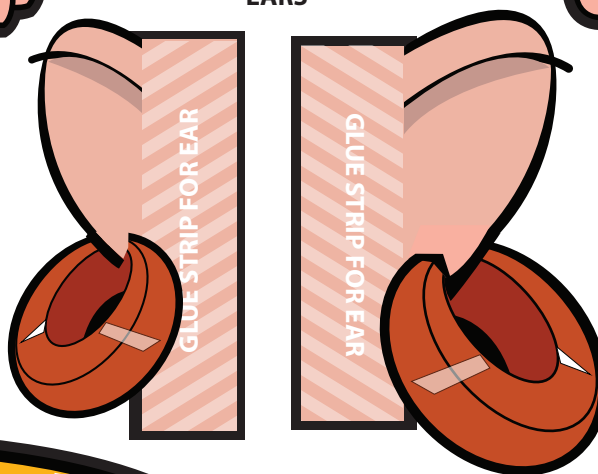

9

Apply glue to the glue strip on the back of the arms and press the arms onto the back of the head box (color forward).

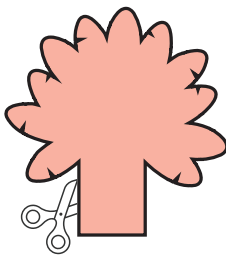

10

Apply glue to the glue strip on the front of the head box and press the helmet into place.

11

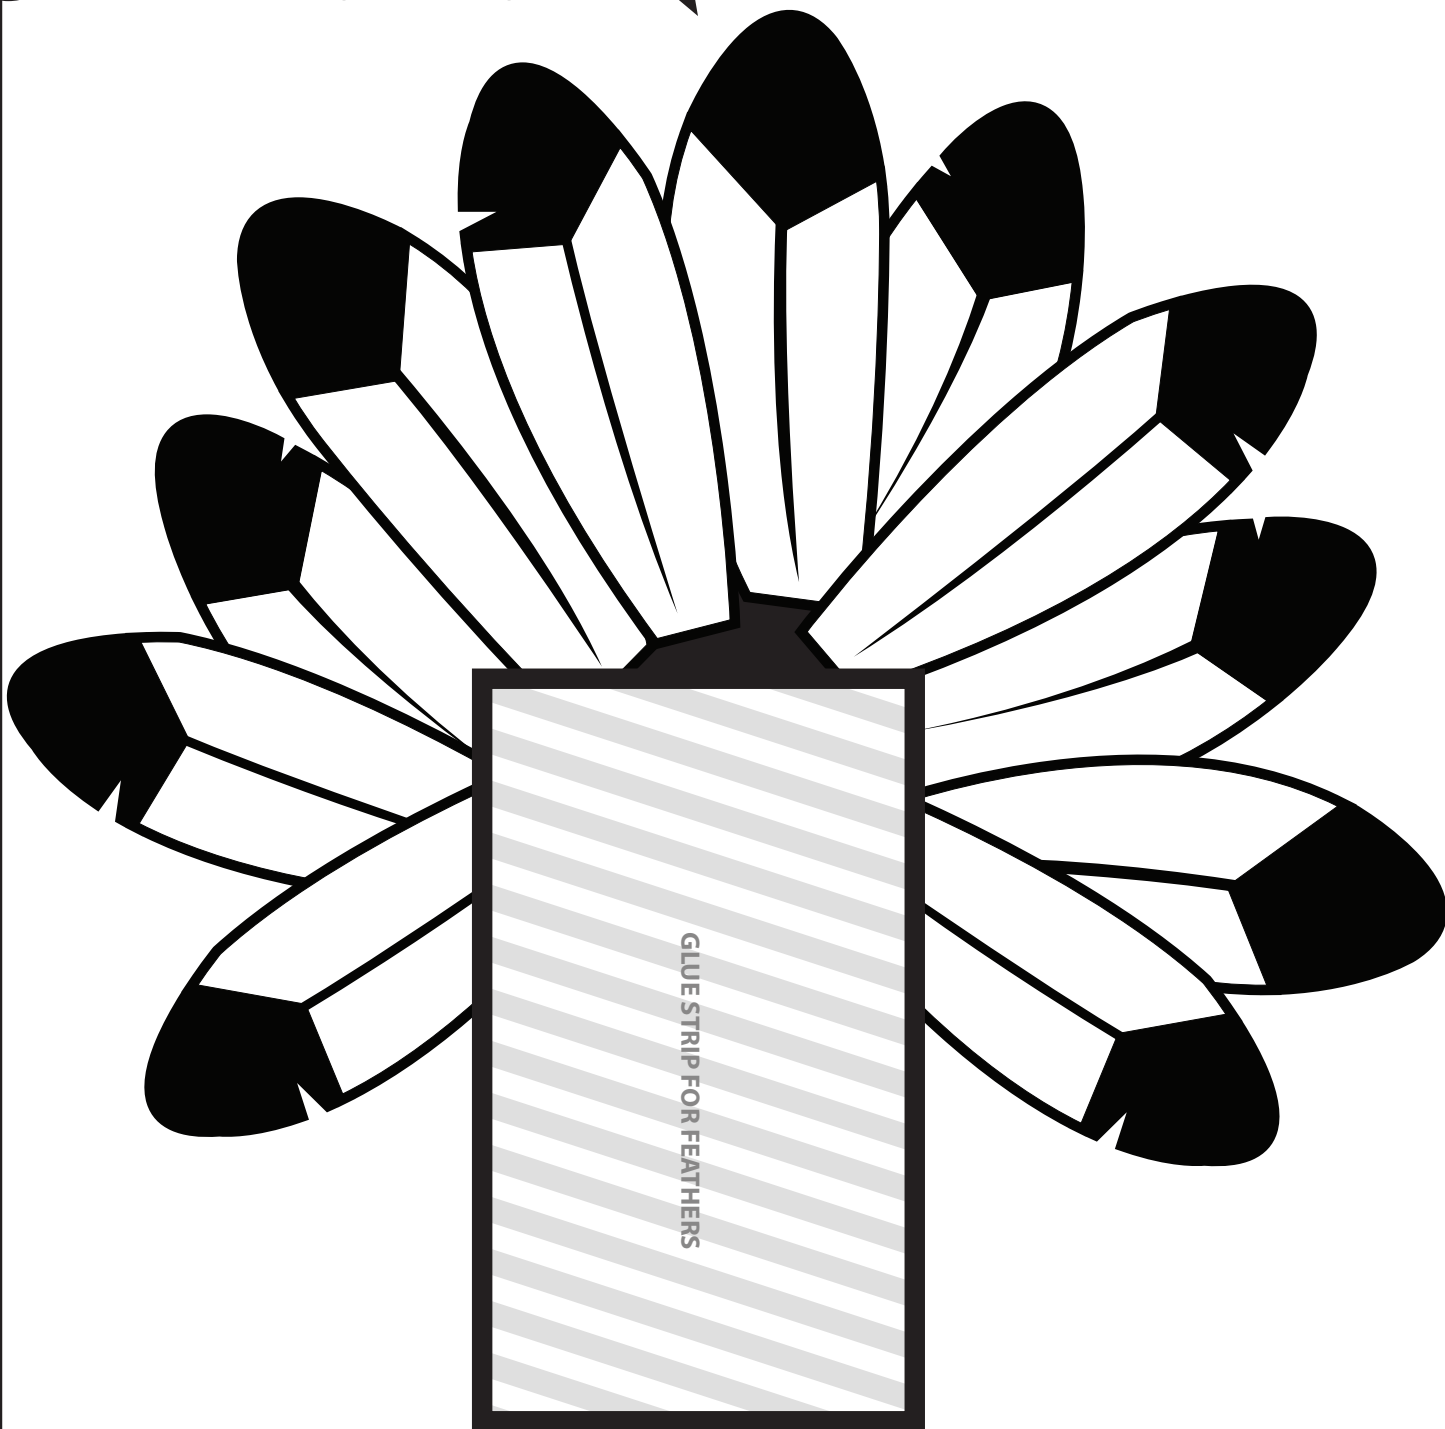

Carefully cut out the headdress back.

12

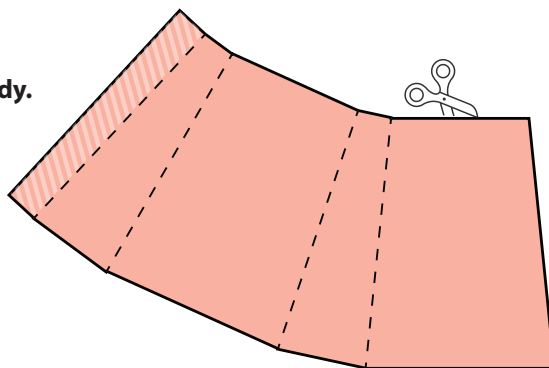

Apply glue to the glue strip on the headdress back and press it onto the back of the head box (color forward).

HEADDRESS BACK

13

Carefully cut out the body.

14

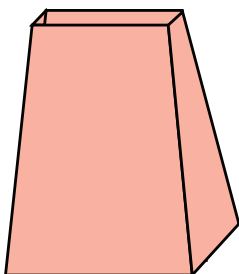

Fold and crease along the dotted lines.

15

Apply glue to the glue strip.

16

Fold and press the glue strip onto the inside of the body box.

17

Place the head on the body, and have fun with your new character!
